

Gragg Clarinet Studio

Music is fun! It is even more fun when you're good at it!

Private lessons set students up to achieve success.

When band directors recommend private lessons to students, parents usually wonder why. Band directors are awesome teachers! Sometimes, though, it can be tough to make sure that every student gets the right amount of instruction or individual time in a group setting. As a former band director, I have “been there & done that,” especially in the clarinet world where there may be anywhere from 20 to 50 students in a class!

Students who want to dig deeper or improve faster can get the specialized help that they need by studying privately with a teacher who is a professional specialist on their instrument.

A private instructor can offer lots of benefits to students!

Personalized Instruction **Instant Feedback** **Goal Setting** **Technique** **Life Skills** **Motivation** **Support**
